

Driving healthcare equity through innovation.

Closing the cancer care gap with transformational achievements.

2022 ACHIEVEMENTS

125,000 total patients treated

39,000 new patients welcomed

263 patients enrolled in **150** clinical trials

16,000 PET/CT scans performed

1.25 million

clinical lab tests processed

- **1,600** bone marrows
- **1,100** molecular tests
- **1,600** FISH specimens

\$56.21 million in healthcare cost reductions resulting from adopting **17** biosimilars

\$47.5 million

in medication assistance

for over **3,878** patients and **32,000** prescriptions filled

\$52.8 million in co-pay assistance and **\$3.5 million** in drug replacement for over **4,700** patients

OCM quality scores exceeding **90%** and **6.1% decrease** in the costs of total care

At AON, we're making great strides toward *closing the cancer care gap* by ensuring every patient has access to the care needed to help fight their cancer. With an expanding network of close to **200 providers** in over **75 clinics** across **17 states**, our practices are not only in big cities, they're in rural areas where medical resources are scarce. We're actively enrolling patients in over 150 clinical trials throughout the network, offering more community-based options so that patients don't have to go far to get the latest treatment. And by responsibly controlling cancer costs and sourcing over \$103 million in free medications and financial assistance for patients, *we're increasing access to care for hundreds of cancer patients.*

Together, we're doing more. We're breaking barriers to cancer care.
